

Communication with the Public - - Annual Report

It is the desire of the board that two-way channels of communication be kept open at all times between the school system and the district patrons. The board will continuously attempt to create and maintain schools that reflect the public's wishes that are within district goals and the regulations and laws governing schools in the state.

To achieve the goal of open communications between the schools and the patrons, the board authorizes the superintendent of schools:

1. To prepare or guide the preparations of informational materials including newsletters, articles for periodicals, newspapers and/or radio releases, special pamphlets and other assigned material as may become necessary or desirable to disclose, and to maintain close liaison with mass media and publicity organizations.
2. To organize or assist in development of speakers' bureaus and speaking engagements with civic/community groups.
3. To provide staff members with assistance and materials for working with educational meetings held locally, including the preparation of such appropriate materials.
4. To assist in coordinating work with civic and other community groups which may from time to time work jointly with the school on activities or projects.
5. To annually prepare and distribute to the board and the general public a written report that includes the information as required for inclusion in Rule 10 of the Department of Education.

Adopted: February 14, 2000
