

Advisory Committees

The Board of Education and/or administrators may from time to time establish Advisory Committees to provide input and recommendations concerning various aspects of the school district's policies, programs, facility planning or other related matters.

Such Advisory Committees shall vary in size and composition, according to the matter(s) being considered. The size and composition shall be determined by the Board and/or administrators. In those instances when it is advisable for the Advisory Committees to have a generally broad and representative membership including school district staff, parents, and patrons, representatives on such committees shall be sought out through local media advertising, recommendations from Board members and administrators, appointment requests from certain organizations in the community, or other reasonable means.

The Board of Education and/or administrator organizing such Advisory Committee shall outline in writing the purpose of such a committee, parameters by which they shall conduct their business, anticipated beginning and ending dates for the work of the committee, and availability of resources, if appropriate, that will be provided for the committee to work with. The expectations of reporting back to the Board and or administrator shall be clearly stated to the committee. The Board/administrator shall have sole power to dissolve any of its advisory committees, and shall reserve the right to exercise this power at any time during the life of any committee.

The Board/administrator shall not be bound to act upon or in accordance with any of the recommendations that may be submitted to them, but should carefully consider such recommendations that they may receive.
