

Extracurricular Activities

The Board of Education believes in the value of extracurricular activities in the school experiences of students. To this extent, the Kimball Public Schools shall strive to provide for a balanced activity program that responds to the wide variety of needs and interests of the students.

The Kimball Public Schools shall adhere to all regulations of the Nebraska School Activities Association that apply to activities governed by them that the Kimball Public Schools participate in.

Likewise, all students shall adhere to these same regulations. In addition, local policies shall be formulated that shall apply to students participating in the district's activities programs.

Any new overnight trip that is not part of district and state competition shall have the expressed approval of the Board.
