

Policy 504.11

STUDENT DISCIPLINE

504.11

Student Detention

The provisions of detention or an in-school suspension program for student violations of policies, rules, and procedures shall provide principals and teachers with an additional alternative for dealing with disciplinary problems that occur within the schools. When this alternative is appropriate, students will be assigned to serve a specified time period in the in-school suspension program or specified room for detention. The principal or his/her designee shall determine these assignments, and the determination of the time period for them.
