

Student Production of Items for Community Organizations or Groups

Requests from groups outside the school to have students produce various goods, projects, and services, while not encouraged, may be approved under the following conditions:

1. The project requests shall have the expressed written approval of the building principal.
2. All materials required in the production of the project shall be provided by the organization or group making the request.
3. The project shall further the educational development of those students who will be involved in the project, and the project must fit within the goals and objectives of the class from which the project would be completed.
