

Student Activities Funds

The Student Activities Funds of the Kimball Public Schools is divided into separate accounts. These funds include athletic, student organizations, and general student activities not assigned to any specific organization or grade level.

Student Activities Funds are those funds raised or collected by and/or for school-approved student groups, and may include gate receipts and student activity card fees. Student Activities Funds will be collected and expended for the purpose of supporting the school's extra curricular activities programs.

Monies raised by students through student body organizations, receipts from activity tickets and gate receipts, are subject to the control and management of the school board.

The Superintendent is responsible for all school/student accounts in the Activities Fund and designation of personnel to maintain and supervise these accounts. Periodically during the school year, a report of those funds will be presented at school board meetings for their review. These funds will be examined annually as part of the district audit.

Separate accounts will be maintained for Jr/Sr High School Activities and Grade School Activities within the Activities Fund. Savings accounts may be established in institutions that have been designated as depositories of school district funds by the school board. Interest earned by the funds in those accounts will be deposited in the Athletic account of the Activities Fund.

Materials and equipment purchased by the student activity funds become district property.

The building principal or his/her designee will approve projects for raising funds for the activity accounts. School organizations may not sell advertising without the approval of the Board of Education or their designee. Any unencumbered class or activity funds will automatically revert to the general activity fund of the school when a class graduates, an activity is discontinued, or a student for which those funds were intended graduates.
