

Insurance

The Board of Education shall provide ample and broad liability and casualty insurance coverage for its members, employees, and the facilities and property owned by the district.

Insurance coverage may be purchased through local agents or affiliates with the Nebraska School Boards Association.

The district's insurance coverage shall be annually reviewed to ascertain if the limits of liability and the amount of casualty coverage are deemed ample for the district. In addition, premium comparisons should periodically be made to determine if the district is getting the best value for the premium dollars expended.

Adopted: December 13, 1999

Revised: January 11, 2016
